

A diagram illustrating a file path transformation. It consists of two rectangular boxes. The top box is shaded gray and contains a list of directory paths. The bottom box is white and contains a similar list of directory paths, but with the final file name changed from a .cpp file to a .h header file. A blue arrow points upwards from the bottom box to the top box, indicating the transformation or relationship between the two paths.

```
/home/travis/build  
/Autonomous-Racing-PG  
/ros.package/docs/master  
/ros_ws/src/simulation/simulation  
_tools/include/chase_cam.h
```
